

Here at No Limit, we also specialize in manufacturing Custom Fuel Tanks, specifically to your specifications. Although you will have to do some measuring here, this ensures that you get the tank with the exact fit that you need. All custom fuel tanks can be made up to approximately 26 gallons. We can make a tank for almost anything. FAX, MAIL OR E-MAIL us a drawing of your dimensions, along with the fitting sheet below and a fuel tank technician will call or e-mail you back with a quote & any remaining questions.

FRAME DIMENSION

A _____ ”

B _____ ”

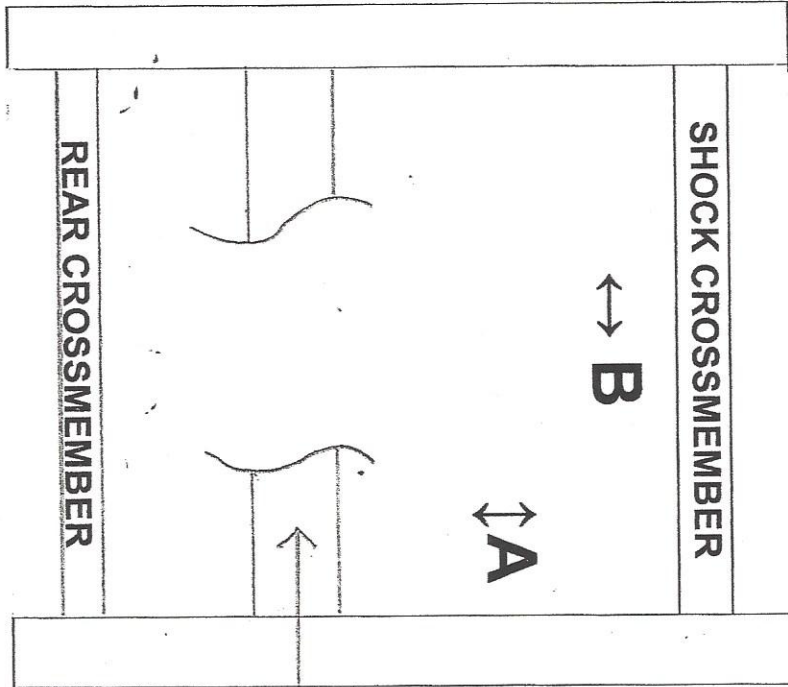

(MEASURE THE NARROWEST OF THE POINTS)

C _____ ”

(FRAME RAIL HEIGHT)

D _____ ”

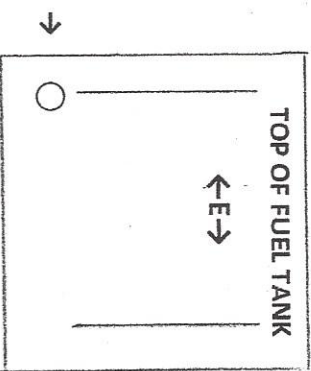

(AMOUNT OF TANK BELOW THE FRAME)

E _____ ”

(PLACEMENT OF THE FILL CAP FROM THE CENTER OF THE FUEL TANK.)

0 = CENTER FILL

SMALL CROSSMEMBER MAY NEED TO BE TAKEN OUT!
